

PRODUCT DATASHEET

RECOMMENDED FOR USE IN:

Medium duty applications where a seal capability is required to prevent or control the egress of odours and gases. As the product is tested to a 40 test load they may be used in areas open to slow moving goods vehicles.

Also available in a locked variant, Valliant's single piece cover section has a slide out feature ensuring safe operation and ease of use.

HEALTH & SAFETY

To help reduce work-related injuries, an ergonomic slide out cover design makes opening simpler and easier allowing safer to access to below ground assets.

SECURITY

Available as a bolt down variant to deter unauthorised access offering increased asset security

PERFORMANCE

Suitable for use in pedestrian areas also subjected to infrequent traffic

ACCREDITATION

Third party certified and kite marked to the requirements of BS EN 124

REDUCED INFILTRATION

The rebate channel within the frame provides a seal capability when filled with a suitable medium such as a waterproof grease.

REDUCED EGRESS OF ODOURS

Ideally suited for use on foul water chambers as the egress of odours is significantly reduced due to the presence of the drop in seal plate.
