

RECOMMENDED FOR USE IN:

Carriageways carrying continuous heavy traffic.

The Warrior surface box range has been specifically designed to offer fast and easy access to below ground networks matched with unrivalled durability. It is also available as a wide flanged variant for use with imperial sized chambers, in a modified option for motorway slot drain systems and a wide range of badged derivatives to identify the network below.

LTS

FEATURE

DURABILITY

To aid the reduction of whole life costs, the Warrior range incorporates the Load Transfer System (LTS) to radically improve installation and product lifespan lowering the frequency of reinstatement and replacement.

A

GRADE

PERFORMANCE

The unit is non rock and silent in operation. Large multi-directional wedge seatings enhance stability and durability which reduces whole life costs.

KITEMARK

ACCREDITATION

Third party certified by BSI and kite marked to the requirements of BS 5834 and also meets with the performance requirements of BS750.

>70

PSRV

ROAD SAFETY

Radial raised chequer design with independently verified skid & slip resistance values.

FEATURE

SECURITY

The Warrior range can be made anti-theft through the provision of a factory installed security chain.
