

Opt-Emax 1000x1000 D400 Hinged Double Triangular Access Cover

The Opt-Emax 1000x1000 clear opening is the ergonomic solution for the frequent access of below ground telecom and fibre networks for inspection and maintenance. Improved installation durability is provided by the Load Transfer System (LTS) and the addition of Install Plus, resulting in a solution that is suited for the most demanding applications.

DURABILITY

To aid the reduction of whole life costs, the Opt-Emax range incorporates the Load Transfer System (LTS) which radically improves installation Integrity and product lifespan lowering the frequency of reinstatement.

SECURITY

High security retro-fit anti-theft locking options available to deter unauthorised access which offers increased asset security.

PERFORMANCE

Three points of suspension ensure non-rock and silent in operation performance.

ROAD SAFETY

Radial chequer design with independently verified skid & slip resistance values which exceed the requirements of chapters 2.6 & 2.7 within Section 2 Design for chamber tops and gully tops of CD 534.

HEALTH & SAFETY

Individually hinged cover sections ensure safe operation, reducing the risk of injury by significantly lowering the effort required to operate the cover sections.

ACCREDITATION

Third party certified by BSI and kitemarked to the requirements of BS EN 124. Compliant to the requirements of National Highways advice note CD 534 and British Standard BS 7903.

SAVE TIME & COST

Available with the Install Plus frame levelling and installation system and also compatible with Install Plus Retro-Fit.

Opt-Emax 1000x1000 D400 Hinged Double Triangular Access Cover	ISSUE NO: 1	SGP052	DATE: 05:2024
---	-------------	--------	---------------

Manufactured in the UK to the highest Quality, Environmental and Health & Safety Standards.

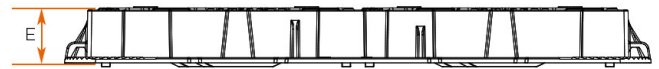

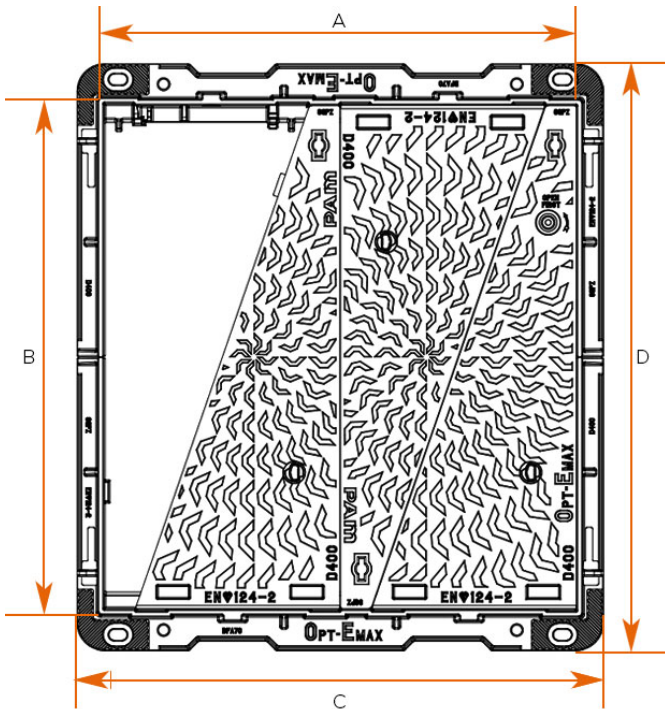

RECOMMENDED FOR USE IN:

Roads carrying continuous traffic where frequent access to below ground networks is required.
