

Channel grating TRANSLINEA - E600 class

CxD (mm)	b (mm)	f (mm)	e (mm)	H (mm)	Mass (kg)	References
750x400	27	51	35	86	45.5	EETL40PF

Material and coating:

- Grating and frame in Ductile Iron EN GJS 400-15: bituminous coating

Origine France Garantie

- This product is made in France in our foundry in Blénod-les-Pont-A-Mousson (54), and is certified Origine France Garantie. This guarantees consumers that the product is made in France in accordance with specifications available on originefrancegarantie.fr. The certification number is: BVCert 6026906.
- *"Origine France Garantie certification is awarded by an independent certification body. Checks are then carried out every year to ensure that the product is indeed 100% made in France and that at least 50% of the product's manufacturing costs (including raw materials) are of French origin".*

Field of application:

- E600 class (Group 5) according to standard EN124-2, areas imposing high wheel loads, such as docks, port areas, aircraft pavements, etc...
- Channels which may be subject to crosswise traffic, for example crossing carriageway.

Main characteristics:

- Usable with a crosswise traffic (crossing carriageway)
- Protection against theft, cannot be dismantled without tool
- [Chaining devices between gratings](#)
- [Securing the gratings to channel ensured by end pieces](#)
