

Fix and cuttable extension spindle for EURO 20 - EURO 20 NG - EURO 20 NEW

The fix and cuttable extension spindle allows valve operation from the ground for EURO 20, EURO 20 NG and EURO 20 NEW gate valve.

Assembly of the operating assembly on a 30x30 operating square.

The height of the extension can be adjusted by cutting the square rod and the extension tube.

Support

EURO 20, EURO 20 NG, EURO 20 NEW ranges require dedicated support for extension spindle :

Depth of cover

The depth of cover H_c is the distance between the upper generatrix of the pipe and the ground level. This height will depend of the diameter of the valve and the height of the extension (H).

H_c mini corresponds to the minimum allow height after cutting ($H=300\text{mm}$)

H_c maxi corresponds the initial height of the extension before cutting ($H=1000\text{mm}$ ou 1710mm)
