Field of use:

- For drinking water supply networks and connection with plastics piping systems for water transport under pressure in PVC-U, PE or PVC-BO
- All the constituent materials have "Attestation de Conformité Sanitaire" in France (ACS), WRAS and DWI agreements in UK, DVGW agreement in Germany

Main characteristics:

- Internal and external coating: blue epoxy powder (thickness 250 microns) according to EN 14901-1
- Joints in EPDM according to EN 681-1
- For transport and storage, the joints are protected by plugs
- Conformity to EN12842: ductile iron fittings for PVC-U or PE piping systems
- Conformity to ISO 16631-2016: ductile iron fittings for PVC-U or PE piping systems

- Conformity to NF T 54-948: plastics piping systems for water transport under pressure - pipes made of biaxial oriented poly(vinyl chloride) (PVC-BO)
