### Field of use:

- Any fire protection networks, restrained or not, buried
- Installation in any industrial sites or other works of civil engineering

## Main characteristics:

- Pressure strength: tests according to FM Approval CN1610 (see label below)
- Internal and external coating: blue Epoxy Powder 250µm (PECB)
- FM Approval (Factory Mutual System)

## Marking :

- The indicated values indicate the pressure tests with or without restraining.
- The certification tests FM are realized according to the FM approvals Class number 1610 (September 2006) referential.
- Marking on high durability engraved laser acrylate label.
