**THE INNOVATION THAT SECURES
YOUR WATER NETWORKS,
OPTIMIZES YOUR COSTS,
AND PRESERVES RESOURCES!**

THESE ARE **PROJECTS DELIVERED ON TIME,**
CITIZENS HAPPY

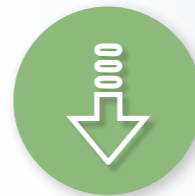

TO QUICKLY REGAIN **THE PEACE OF THEIR STREETS,**
AND AN ESSENTIAL **SERVICE OF LASTING QUALITY.**

REVOLUTIONARY INNOVATION
ensuring perfect sealing from installation.

INSTANT LEAK
detection for a reliable and secure network.

REDUCTION
of hydraulic tests, optimizing costs.

PRESERVATION OF RESOURCES
by minimizing water waste.

SIMPLIFIED INSTALLATION,
fully compatible with your existing systems.

TOTAL PEACE
of mind with a reassuring and reliable system.

“ **10 SECONDS**
PREVENT **A WEEK**
OF LEAK DETECTION. ”

REDUCES
water waste.

ENABLES
multiple projects to run in parallel.

PREVENTS
damage caused by water leaks.

LOWERS
all costs associated with leaks.

YOUR ADVANTAGES

AVOID LEAKS WITH CONTROL+:

Instantly detect anomalies upon installation for quick corrections and a worry-free network.

SAVE WITH CONTROL+:

Reduce the number of hydraulic tests and optimize your installation costs.

ENSURE RELIABILITY WITH CONTROL+:

Guarantee the sealing of your networks from installation for total peace of mind.

INSTALL EFFORTLESSLY WITH CONTROL+:

Quick and ergonomic checks, saving time and optimizing field operations.

MANAGE YOUR ENVIRONMENTAL IMPACT WITH CONTROL+:

Fewer water tests, preserve resources, and eliminate waste.

CHALLENGES PREVIOUSLY DIFFICULT TO MANAGE IN CASE OF LEAKS:

TECHNICAL

LOCATING
the leaking joint.

EXCAVATING
and repairing the joint.

PERFORMING
another water test for final acceptance.

FINANCIAL / ENVIRONMENTAL

POOR ASSEMBLIES.

LONG
implementation delays.

INTERRUPTIONS
in water service continuity during a time of resource scarcity.

THE **control+** SOLUTION

BY PAM

MAINTAINS HYDRAULIC AND MECHANICAL PERFORMANCE.

With Control+, ensure the sealing of your water networks from installation. Immediate checks, without compromise, to detect and correct leaks in real time. Optimize your costs, simplify your installations, and contribute to sustainable resource management, while strengthening your competitiveness and image of innovation.

A PATENT FILED IN 2018

80% elimination of leaks during installation

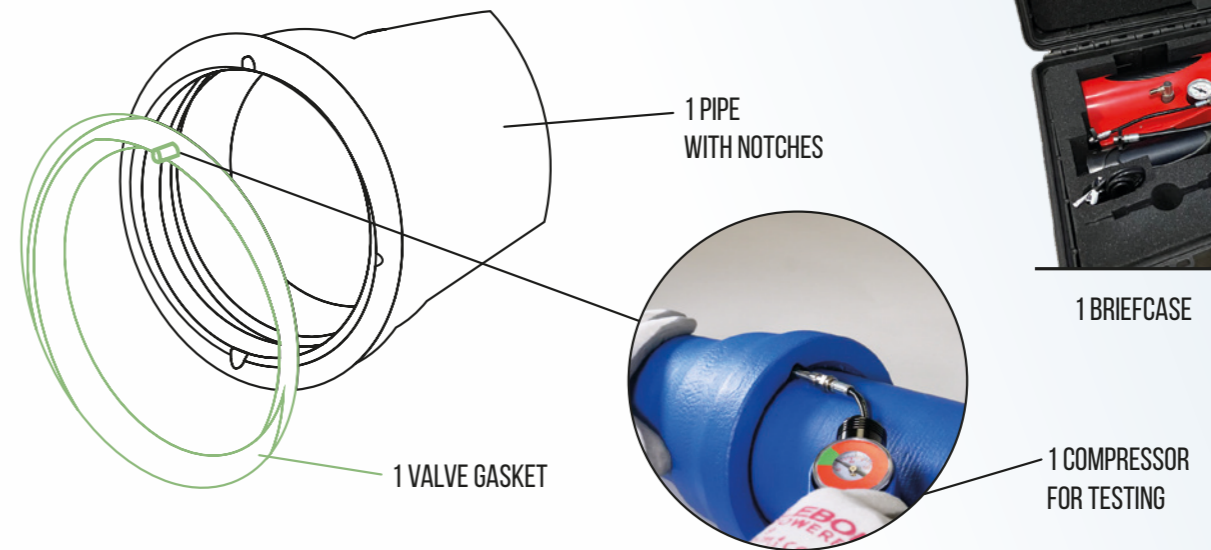

PRESERVING WATER RESOURCES

DISCOVER
HOW
CONTROL+
WORKS

CONTROL +, ONE SOLUTION, THREE COMPONENTS

1 BRIEFCASE

1 COMPRESSOR FOR TESTING

CONTROL +
AN ECONOMICAL
& SUSTAINABLE SOLUTION...

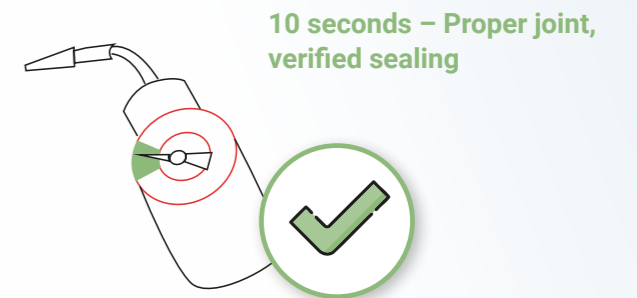

CONTROL +
A SIMPLE VISUAL CHECK
FOR A VALIDATED JOINT

SIMPLE
Easily check pressure with the integrated valve.

FAST
A quick test in just a few seconds during installation.

COST-EFFECTIVE
Reduces the need for extensive testing.

CONVENTIONAL
No changes to your usual practices.

REASSURING
Ensure optimal quality without waiting for a water test.
